

## CONSULTING

**Function:** Deployment Support

**Product:** LSS Program Assessment

# Deployment Assessment: Improved Program Results, Efficiencies and Effectiveness.

### Benefits:

Program assessment will deliver an approximate 10x return on investment (ROI) within one year if only one project succeeds. In addition:

- Clear assessment scores on ten key program areas
- Improved team alignment on the key issues and path for improvement
- Benchmarking data to compare your program to other successful programs

**Duration:** In two phases:

#### 1) Planning and Preparation:

1 day (1 SBTI resource) - Offsite, conducted at least 15 business days prior to assessment

#### 2) Interviews, Fact Finding and Integration, Assessment Communication:

4.5 days (2 SBTI resources) - Onsite, presentation and discussion conducted during the assessment week.

### Participants:

Client: 4 to 20 Executives, Senior Leadership, Program Leadership, Key Process Owners

SBTI: 2 Senior Consultants

### Location:

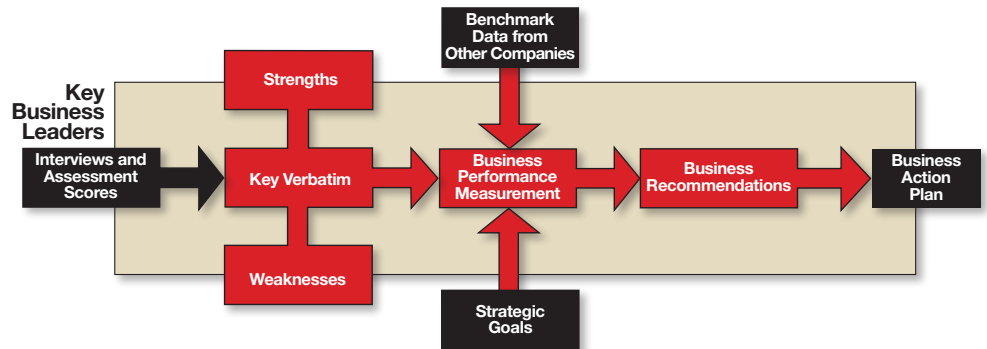

Participant's Site

### Consultant(s):

Bios and references provided at time of engagement.

An objective, data-oriented, comparative assessment is the key to charting a course for greater program benefits. Assessing each program using ten key program areas and clear scoring anchors provides comparisons to several other successful programs. Team alignment is improved, clearing the way to accelerate improvement and benefits.

SBTI's Lean Six Sigma program assessment allows benchmarking with other leading companies (anonymously) on these ten key areas. The assessment provides comparison points to measure progress over different times. Further, it is designed to engage program participants in dialog regarding program issues such as barriers and opportunities.

SBTI Senior Consultants will interview participants and assist in data collection and analysis for ten key program assessment topics:

1. Project Selection
2. People Selection and Development
3. Improvement Work and Process Maturity
4. Operations
5. Services / Transactional Areas
6. Development of New Products and Processes
7. Supply Chain and Materials Management
8. Managing for Excellence
9. Sustaining the Gains
10. Results and Impact

At the conclusion of the assessment week, SBTI facilitates a team discussion on:

- Assessment Scores
- Strengths / Weaknesses
- Key Verbatims
- Areas for Improvement
- Benchmarking
- Recommendations
- Business Action Plan
